NO SUCH THING AS A

HARD WINTER

2100 SSV

The new Ventrac SSV makes it easy and efficient to manage snow and ice on sidewalks. The SSV is a dedicated Sidewalk Snow Vehicle with an industry first 34" width in order to allow access to the tightest areas of any property. The SSV allows more reduction of hand labor and walk-behind equipment than ever before.

BENEFITS

- 34" Width
- 4x4 Skid Steer Drive
- 8mph Top Speed
- Compact Design
- Fast & Efficient
- Brine Sprayer
- Drop Spreader
- Quick Attach Hitch

WINTERS

DOMINATED

When keeping sidewalks free of snow and ice is a priority, Ventrac leads the industry with options designed specifically for the task.

COMPACT POWER

The Ventrac SSV is small enough to maneuver on sidewalks and powerful enough to quickly clear paths and move heavy snow.

IN CONTROL

Stay in control with offset single-handed drive levers and hydraulic attachment controls.

ONE PASS ICE CONTROL

Precisely spread de-icing material where you want it with the patented Ventrac drop spreader and brine unit.

CLEAN SWEEP

The powerful rotary broom is an efficient solution for light to medium snowfalls and can also handle more demanding tasks.

PUSHING POWER

The Ventrac Plow Blade for the SSV powers through snow. It has a working width of 42-inches and angled width of 36-inches, perfect for sidewalk snow removal.

MOVE WINTER'S WORST

Built for deep snow, this two-stage snow blower is the industry leader for its size. With a working width of 34", it's a perfect fit for sidewalks.
