

RESIDENTIAL
MOWERS

IMPROVING LIFE & LAWCARE

In 1964, Hustler® Turf introduced the world's first twin-lever zero-turn lawn mower. Today, the twin-lever design created by Hustler is used by most zero-turn manufacturers. With a jump on the competition, Hustler quickly began improving the original design by implementing a rigorous R&D program to engineer, test, and push the envelope on what was possible with a zero-turn mower for the commercial market.

In 2012, Hustler took these years of innovation and experience with commercial equipment and put that knowledge into a residential zero-turn mower called the Raptor®. The success of the Raptor led to a complete series of Raptor models, and eventually spun off the Dash® Series.

Today, homeowners rely on Hustler equipment for its durability, reliability and professional cut quality. They also depend on our quality customer service, product warranties and a dealer support network of over 1,300 US locations.

THE HUSTLER® ADVANTAGE

SMOOTHTRAK™ STEERING

Developed over decades of experience. Precision control designed to help trim and maneuver easily around obstacles.

INTEGRATED PARK BRAKE

Hustler was the first to integrate the parking brake into the twin-lever design. This design was patented for years and continues to be a great safety measure for operators.

FABRICATED DECKS

Our fabricated welded-steel decks are designed to handle harsh conditions. Heavy-gauge steel and reinforced impact areas help prolong the life of the deck.

TOUGH FRAMES

Fabricated welded-steel frames, thick front axles and forks with heavy-duty caster yokes help your mower last for years. Our frames are tested for thousands of hours on concrete test tracks with inclines and embankments.

SIMPLE DESIGN

Who wants something you can't work on yourself? More engineering doesn't always mean more parts or more complexity. Quite the opposite. We engineer our mowers for easy serviceability with flip-up seat pans, removable floor pans, and vented pulley covers.

PRECISION CUT QUALITY

Our decks are not only tough, but engineered to give homeowners a clean, crisp cut. This comes from decades of learning how the airflow inside the deck stands grass blades up during the cut. Make your neighbors jealous with a beautifully manicured yard and well-defined stripes.

DASH XD

DASH XD

The Dash® XD is Hustler Turf's most compact residential mower designed for smaller property owners. The smaller design makes it ideal for garage storage and fitting through tight spaces like fence gates. One piece fabricated frame and welded steel deck come standard along with bolstered seat, Kawasaki® Power & BigBite™ tires.

Engine	Deck Sizes Available
15HP* - Kawasaki FR541	34", 42"
18HP* - Kawasaki FR600	48"

✓ 2yr / 200hr Residential Limited Warranty**

Premium Seat
Bolstered with built-in lumbar support.

Premium Power
V-Twin Kawasaki engine.

18" BigBite™ Rear Tires

*As rated by the engine manufacturer

** See owner's manual for warranty details and information. Certain restrictions apply.

IDEAL FOR UP TO

1
ACRE¹

DASH XD

Fabricated Steel Frame
1"x 2" fabricated steel frame making it tough and durable.

Foot Operated Deck Lift
Easily adjust the deck height between 1.5" - 4.5".

Welded Fabricated Steel Deck
11 ga. welded fabricated steel deck adds durability compared to a stamped deck.

Bolstered Seat
Bolstered with built-in lumbar support.

18" BigBite™ Rear Tires
We worked directly with the tire manufacturer on this design.

Compact Size
Easily fits through most gates to tackle fenced-in back yards. The small footprint makes it ideal for storing in a garage.

Kawasaki® Power
V-Twin Kawasaki engine

Standard Engine Guard
